

West San Antonio CHAMBER OF COMMERCE

August 24, 2015

RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

The West San Antonio Chamber of Commerce would like to extend its support to the merger of Charter Communications, Time Warner Cable and Bright House Networks into New Charter. Our mission is to promote the commercial, economic and social well-being of the western community of San Antonio and our members. We endorse unity among our members by supporting their common interests. One area of interest to all our members is quality broadband service. This is why we support New Charter, because it would benefit our members through high-quality broadband distributed under network neutrality.

New Charter would offer our members a range of broadband speeds that would cater to the diverse needs of each business. With speeds of 60 Mbps up to 300 Mbps, no customer would face dreaded buffering or failed service. All customers would also benefit from zero modem fees and a fully digitized platform including cloud-based technology.

New Charter would further help our members through its commitment to network neutrality. The policy would be backboned by no data caps or usage-based billing, allowing all customers to gain unlimited access to the Internet. It also means New Charter would not favor certain domains, which helps to maintain equality for all businesses working online.

We support New Charter because we believe it would offer our members great products and services. We ask you to please consider the future impact of New Charter and approve the merger.

Sincerely,

Grace Rodriguez-Elliott
Chairwoman, Board of Directors
West San Antonio Chamber of Commerce

Gabe Farias
President and CEO
West San Antonio Chamber of Commerce
